Profiles

LeetCode | CodeChef | Codeforces | GitHub | Portfolio

Education

Institute of Engineering and Technology (IET Lucknow) — Lucknow, UP, India
B.Tech – Computer Science (Artificial Intelligence) | ***CGPA: 9.13 / 10*** — *Sep 2023 – Jun 2027*

Government Polytechnic Bijnor — Bijnor, UP, India
Diploma – Computer Science & Engineering | ***82%*** | ***Gold Medalist*** — *Oct 2021 – Jul 2024*

Experience

Nexopsdev Technologies — July 2026 – Sept 2026
Full Stack Developer Intern — ***[Completion-Certificate]*** — *Remote*

– Built responsive healthcare web application modules using **Next.js**, **Tailwind CSS**, and **shadcn/ui**, implementing **15+ UI features** including AI-powered features.

– Integrated **10+ Django REST Framework APIs** with frontend components and the **SQLite** database for smooth data flow between frontend and backend.

– Worked with the AI team on a **healthcare support AI agent**, contributing to **vector embeddings** for retrieval and **web search tools** to give context-aware answers.

– Added **Zod-based validation** to forms and API inputs to reduce invalid submissions, and completed **30+ tasks** in an Agile team using Git, GitHub, and Jira.

Projects

RailInfo | Live | GitHub

Tech: Next.js, TypeScript, LangChain, LangGraph, RAG, Pydantic, MapLibre GL, OpenWeather

– Built an **AI-powered train tracking agent** using **LangChain and LangGraph** that answers natural-language queries about specific trains, including real-time location, route, weather, and destination information.

– Used **RAG and Pydantic** for contextual retrieval and structured responses, with **chat interfaces** for train status and location-based weather queries.

Hostly | Live | GitHub

Tech: React.js, TypeScript, Tailwind CSS, Clerk, Node.js, Express.js, Docker, AWS (ECR, ECS, S3), CI/CD

– Self-hosted deployment platform where users paste a GitHub repo URL and Hostly **automatically builds, containerizes, and deploys** it using **Docker, Amazon ECR, and Amazon ECS**, reducing manual deployment to a single step.

– Built a custom **Node.js reverse proxy** that serves **S3-hosted builds** on project-specific URLs.

Talkify | Live | GitHub

Tech: React.js, TypeScript, Node.js, Express.js, MongoDB, OpenAI API, JWT, ImageKit CDN, Prism.js

– AI-powered chat and image-generation web app with real-time **OpenAI API** conversations, persistent chat history in **MongoDB**, and syntax-highlighted code responses.

– Implemented cookie-based login using **JWT** and **bcrypt** password hashing, and used **ImageKit CDN** to store generated images and deliver them quickly.

Technical Skills

- **Languages** : C++, Python, JavaScript, TypeScript, HTML, CSS
- **Frameworks & Libraries** : React.js, Next.js, Node.js, Express.js, Django, Tailwind CSS, REST APIs, Zod,
- **Agentic AI & LLM Tools** : LangChain, LangGraph, LangSmith, RAG, Vector DB, Prompt Engineering
- **Databases & Messaging** : MongoDB, MySQL, SQLite, Redis, RabbitMQ
- **Cloud & DevOps** : AWS (S3, ECS, ECR, IAM), Docker, CI/CD, Vercel
- **Tools & Platforms** : Git, GitHub, Jira, Postman, VS Code
- **CS Fundamentals** : DSA, OOP, DBMS, Operating Systems, Computer Networks, System Design (LLD & HLD)

Achievements

- **LeetCode (1858)** – Achieved the **Knight** badge; ranked among the **Top 6.2%** of users globally on LeetCode; secured **Worldwide Rank 541** in Biweekly Contest 187 (31,000+ participants).
- **Codeforces Specialist** – **Max Rating 1415** | **Global Rank 1861** in Round 1037 Div. 3 (25,000+ contestants)
- **CodeChef 3-Star** – **Peak Rating 1658** | **International Rank 211** in Starters 224 (17,000+ candidates)
- **The Big Code – Google** – Selected in **Top 15,000** candidates nationwide (2026)
- **Solved 1300+ Data Structures and Algorithms problems** across **LeetCode, Codeforces, CodeChef**, enhancing algorithmic thinking and coding efficiency.
- **Gold Medalist** – Diploma in Computer Science & Engineering, awarded for academic excellence
